

I would ask the FCC not to implement any proposal that would lessen Indiana's Telephone Privacy law protections. Once while I was in home neck traction device I had to quickly get out of it to answer the phone (I was expecting a call from my parents) but the call was a solicitor for a credit card company! It has been such a relief to know that only the calls that matter now get through. We also enjoy peaceful family time around the dinner table with no interruptions. Please, please don't change Indiana's law.
